This announcement was made by a person who is close to Hugh McLaugh-lin, the veteran leader, and one of the "Big Four." This informant also said there will undoubtedly be a split among the regulars.

If there is a split, Kings County will have three factions in its Democracy instead of two—that is, unless the followers of James D. Bell join forces with the Shepard people to fight the machine. At a meeting of the Executive Committee the fight will be made on the question of whether the reorganizers are to control the party or whether the old machine is to lead.

'The matter has been brought to a head on the proposed election of new State Committeemen in place of Senator Michael J. Coffey, John Delmar and John McCarty, the old machine leaders, who were forced out by the Bell faction.

These men say the Executive Committee has not the power to elect State Committeemen, as they must be elected by the State Committee, as provided by a resolution passed at the State Convention.

of the LXX. to-day that the Committee is not only going to force the prosecution of police officials incriminated by the Lexow Committee, but that every city department will be investigated. This is considered necessary in order that Col. Strong may have a fair chance to give the city clean government.

"A Mayor's Power of Removal bill will not be sufficient to insure reform," said a member of the Committee to-day. "There are many subordinate officials who will, of course, remain in office, and as an indication to them of what reform means it is necessary to send some of the guilty officials to prison.

"Only prosecution can secure this, and the LXX. will force the prosecution. Even one or more police justices may be indicted, and it is not violating any confidence to say that the Committee has its reform eye on men high in nearly all the departments."

If the LXX. succeeds in compelling Gov. Flower to direct the Attorney-General to conduct prosecutions, he or his departy will, under the laws of 1894, proceed independently of the District. Attorney, and will exercise the same power in the Grand Jury room and before the Court.

Manhattan rose 1-2, to 104, on the announcement that the cause for the poor showing made recently by the Company was the fact that the management charged about \$400,00 expended for new equipment and rails to expense account. The stock subsequently sold off to 102%, St. Paul fell 1% to 614, Rock Island 1 to 624, Northwest 14, to 100%, Burlington and Quincy 1 to 734, Southern Railway 1% to 104, do, pref. 14 to 1575, General Electric % to 34%, Northern Pacific pref. 12 to 17%, Western Union 1 to 87%, and Lead % to 41%.

The banks gained about \$1,900,000 in cash during the week, both the currency movement and the Sub-Treasury operations having been in their favor. The following are the comparative figures:

The pressure against stocks continued right up to the close, the Grangers being the chief object of attack. St. Poul sold at 60 1-2, a net loss of 21-8 per cent. The coalers, Sugar and Chicago Gas were relatively firmer than the rest, and the first-mentioned closed higher than on yesterday.

Under cover of the attack on the Western group the bears were buying other stocks of which they are short.

The sales of listed stocks were 105.00 shares. In the unlisted department 10,-900 shares of Sugar and 1,400 Lead were traded in.
